18th February 2008

When I became President of your organisation I tried to put in place some structure that I felt it needed, a firm base from which we could grow.
I introduced the National Calendar as the first step in this process.
At the time, my main objective for the National Calendar was to organise our playing year in order to make available regular, quality time to train our National Squads.
The National Training Weekend was for this purpose and it has not only achieved the objective but has also developed into a far more reaching vehicle which now includes the improvement and development of our younger players.
A year or so ago Carlos put together a squad of players born in 1994 and started to give them regular training at the National Training Weekend. This squad will be the pool of players from which our National Schoolboy Team will be selected for the European Championships to be staged in 2010. We also have a squad in place for 2011 from those born in 1995 and it is our intention to continue this process for the future.
The long term result should be far better results at International Competitions.

In order to mark the occasion of the first team being prepared in this way, the NRHA have applied to the CERH, the Committee of European Roller Hockey, for permission to hold the European Schoolboy Championships in England in 2010.
Although the Swiss applied before us, I have spoken with their President and they are willing to let us stage the Championships in 2010 and they will take the following year.
In order for us to stage this event we will need approximately £10000.00.
It is a lot of money.
However, it can be achieved very simply.
If we can sell 100 further numbers from the 600 Club for the two years, that will bring in a total of £12000.00.
As a further motivation, it will provide additional funds to enable the level of prize money to be increased.
There may be other funding sources available and they are being looked into, but at the moment the 600 Club is one that we know of that can achieve our goals
To do this, I need your support.

In order to find out more, please send me an email with your name and address and I will send out to you a 600 Club Pack which includes all the information that you need to become a part of the "Club".

Alternatively, 600 Club Packs are available at the National Training Weekends.
